www.ILC.net

- A specialized quality improvement system to ensure customer-focused support
- Annual surveys for individuals, guardians, and staff
- Monthly management visits and quarterly administration visits to home and day sites
- Incident reports reviewed by management and quality improvement

Residential Services

Living in a community to build lifelong relationships

This around-the-clock service happens through Supervised Living or Residential Supported Services, where each person is supported while living in a community with housemates. ILC also offers Host Homes, similar to adult foster care.

RESIDENTIAL SERVICES INCLUDE:

- Residential Support Services
- Supervised Living (SL)
- Host Home/Companion Home
- CFC PAS/HAB

Day Habilitation

Supporting involvement at work and in the community

These services help individuals develop new talents and passions, equipping them to pursue a fulfilling life and career. Individuals stay involved with volunteer work, refining skills to reach their goals, whether that's community involvement or future employment.

DAY HABILITATION SERVICES INCLUDE:

- Respite Care
- Employment Assistance
- Supported Employment
- Behavioral Support Services
- Residential Services

Nursing Plans and Services

Innovative care that supports specific needs

Nursing Plans assess the physical, mental, and emotional needs of each person and develop plans to make sure their unique needs are met. All plans are tailored to each individual and are closely managed by a Registered Nurse.

NURSING PLANS AND SERVICES INCLUDE:

- Dental Treatment
- Dietary Services
- Audiology Services
- Social Work Services
- Physical, Occupational, Speech and Cognitive Rehabilitation Therapies
